HIGHLIGHTS: HKOA 44th Annual Congress | Certificate Course Module V on Radiology and Rehabilitation

UPCOMING: APOA Hand and Upper Limb Society 2nd Meeting & 37th HKSSH Annual Congress | 2025 APFSSH-APFSHT Biennial Congress APWA-ISSH-SHTI Annual Congress | BSSH Autumn Scientific Meeting 2025

HKOA 44th Annual Congress (2-3 Nov 2024) - Summit on Upper Limb Pathologies

We are privileged to have invited Professor Philippe Liverneux from France to deliver various talks on his vast experience in distal radius fractures and education. He shared with us the tips and tricks in minimally invasive volar plating for distal radius fractures, and the use of wrist prosthesis. In addition, he inspired us with an interesting talk about deliberate practice in enhancing surgeons' skills. In the HKSSH concurrent session, Dr J Koo and Dr C Fang enlightened us with their expertise on volar rim distal radius fractures and the use of 3D printing in correcting deformity in the forearm respectively.

HKSSH Certificate Course - Module V (Radiology and Rehabilitation)

The theme of the certificate course was Radiology and Rehabilitation. It was held in the morning on 25 January 2025 in Queen Elizabeth Hospital. We were honoured to have invited hand surgeons, radiologist and hand therapists from various hospitals to shed light and share their experience

on topics like ultrasonography on the hand and wrist, hand & wrist fractures, flexor tendon injuries, rehabilitations of TFCC and scapholunate injuries. There were also live demonstrations on the use of ultrasound on the upper limb. The session was wrapped up with a Prize Quiz. We wish that all these interactive exchanges involve all participants and everyone could learn and bring home something.

Combined APOA Hand & Upper Limb Society 2nd Meeting and 37th HKSSH Annual Congress

Date: 28th Feb – 1 Mar 2025

Venue: Hong Kong Academy of Medicine
